

Getting started

Giving the students a demonstration on how to pull and spread concrete. (on the job training)

Continue to pull and spread concrete

Mr. B is helping out

Pouring a concrete floor

Jr's are working very hard

Spreading the concrete so we can screen it

Hard work

Establishing our grade (this is the height of the concrete floor)

The way we had the concrete come in through the window

The truck pours the concrete into the shoot
and we spread it

The students are taking turns spreading the concrete

They worked together (TEAM WORK)

TEAM WORK Continued

Finishing up the floor

The end is near

Couple of feet to GO

We are DONE !!!

The superintendent during his visit to our job site praises our students, “ Your students were able to articulate in detail the entire job from start to finish. Thank You.”
